

I don't own XM radio at this point but have many friends and family that do. I feel strongly that it is a wonderful service that not only provides an amazing selection of music but also traffic, weather, sports, etc. I find it amazing that the National Association Of Broadcasters is using it's influence to have congress limit XM Radio's ability to provide "locally oriented" content.

My friends and family PAY for this service because it offers MUCH MUCH MUCH more than any other. To have this limited is an insult to Free enterprise in this Great country of ours.
